

# Journal of CME

An international journal on CME/CPD across the health professions

11 February 2026

## 2026 Special Collection

### Future-Ready CPD: Balancing Innovation with Human Connection

We invite you to contribute to the Journal of CME special collection on Future-Ready Continuing Professional Development (CPD): Balancing Innovation with Human Connection. The goal of this special collection is to explore how CPD can prepare healthcare professionals and organisations to thrive in a landscape shaped by both digital transformation and the irreplaceable value of human engagement. We especially welcome manuscripts that show how digital transformation can enhance, not replace, human relationships, and how global collaboration and equity in CPD are strengthened through genuine interpersonal connection.

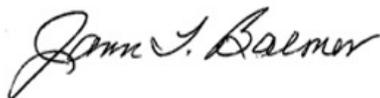

The themes for this collection are intentionally broad, and we are specifically seeking manuscripts that address, but are not limited to, the following:

- Future-Ready CPD: Empowering Teams Through Lifelong Learning, Wellbeing, and Trust
- Quality-Driven Leadership: Advancing Safe, Effective Care Through Strategic Change
- Advancing Equitable, Sustainable Health for Communities Through CPD
- Responsible Innovation and Digital Empowerment in CPD
- Global Equity and Community Health Advancement Through Collaborative CPD

Please visit [jcme.org/special-collection-2026](https://jcme.org/special-collection-2026) for more detailed information on each theme and submission instructions. Manuscripts must be submitted by **31 December 2027**. Please ensure that your manuscripts conform to the journal guidelines and use the [Submission Portal](#) when submitting your article.

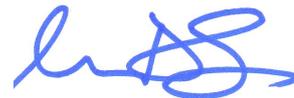

This special collection highlights the integral relationship of human connection with technological innovation. CPD has a unique opportunity to leverage humanity with technology to optimise the care of patients and coordination of care across teams, organisations and communities.

Let us know if you have any questions and we look forward to receiving your submission!
